You'll Never Know

Nissim, Offer

Look what you have gone and done You fool The best was yet to come What a childish game to play You had it all And threw it all away

You were not the first my love Don't kid yourself You sure won't be the last You have just yourself to blame A fools a fool By any other name

You'll never know, you'll never know You'll never know, you'll never know You'll never know How close we came
