

Gotta Get Away

Offspring

1. I'm getting edgy all the time,
Someone around me just a step behind,
It's kinda scary, the shape I'm in,
The walls are shakin' and they're closing in,
Too fast or a bit too slow,
I'm paranoid of people and it's starting to show,
There's one guy that I can't shake,
Over my shoulder is a big mistake.

R: Sitting on the bed,
Or lying wide awake,
There's demons in my head,
And it's more than I can take,
I think I'm on a roll,
But I think it's kinda weak,
Saying all I know is,
I gotta get away from me.

2. I tell you something just ain't right,
My head is on loose but my shoes are tight,
Avoiding my friends cause they all bug,
Life is a riddle and I'm really stumped,
If you reason, don't you know,
Your own preoccupation is where you'll go,
I think I'm being followed, I look around,
It's only my shadow creepin' on the ground.
