1. Look at me I'm fallin' Off of a cliff now I can still hear my mama yelling No No No But the words mean nothing Can't catch up to me now And the view is so beautiful All the way down

When I was a little boy
Suckin' juice from a bottle
Believing my perceptions were oh so real
But I don't know nothing
Still knowing nothing
Was just enough for me to know the way I feel

R: This is life
What a fucked up thing we do
What a nightmare come true
Or a playground if we choose
And I choose

2. Look at me I'm swollen
 Like a banana fish now
 I'm never gonna make it out of my hole
 But I keep on laughing
 Doesn't really matter
 There's dozens of reasons for explaining my soul

When I was a teenager Suckin' booze with the Vatos Discussing who was gonna live to be 21 They said they wouldn't make it They didn't make it We're all naked when the day is said and done

R: This is life...

- *: Don't know who made this all come true
 But now while you're here
 You just gotta do what you gotta do
- 2. Now if I wasn't such a weenie Do you think you'd still love me Pretending I'm an airplane on the living Room floor But like a lovely generator You stand right by me And if words were wisdom I'd be talking Even more

So I keep on falling
As I'm looking back above me
Watching as my mama just becomes a little dot
Now I'm like DeNiro
I'm amarillo
And I'll never know when I hit the ground
