It'll Be a Long Time

Offspring

All this time has whittled away Like so many days in one Back and forth the leaders sway Backing it up with guns

Superpowers flex their wings Hold the world on puppet strings Egos will feed While citizens bleed

That's always the way it goes
When will the world listen to reason
I've got a feeling it'll be a long time
When will the truth come in to season

I've got a feeling it'll be a long time All they want is what they can defend Before their time is up Make the same mistakes again

Heard it all before Superpowers flex their wings Hold the world on puppet strings Egos will feed

While citizens bleed
That's always the way it goes
Well if they tried
Maybe they'd see

It'd do a little good to let the world be free Handshake and a smile Gets you on through
Then turn it all around with a suicide move

But you know it's not fooling anyone but me You gotta make yourself see what you want to see

[Chorus]
