## Take It Like a Man

Offspring

When you won't go along Some will feel like you can't find your way Heaven knows Heaven knows I've seen it all before Now don't get me wrong I've seen many a life gone astray When someone goes All your bows won't make it any better so let it go [Chorus] Shut up and take it like a man You need us to get a life For your own good we'll take you by the hand 'Cause you need a little more

Maybe no one will say it Maybe no one's aware it goes on All I know All I know it's like going off the deep end Could you make a decision? Could you think for yourself and go on? Everyone knows Everyone knows you've got to fit into the mainstream so save yo ur woes

[Chorus]

Close your eyes Look away now Make believe while you can So you'd best go along Don't let on if you can't find your way Many more Many more do it for you Because heaven knows Heaven knows it's like playing with fire Your life's a throw

[Chorus]
