

The Future Is Now

Offspring

This city's made of diamonds
And tomorrow glass will grow
On the freedoms that divide us
They're coming after me
Flashback nineteen eighty-four
Now who's knock-knocking at your door?
A thought that starts a riot
They're coming after me now

Life is not the same
I am one but
Sparks turn into flames

Will you take what's in my head?
And erase me when I'm dead?
'Cause the future is now
Now I'm disappearing

The day has turned to night
Can you save me from the light?
'Cause the future is here
This is how I disappear

Running down a spiral
With the light of better men
Shouting progress is survival
Take one last look and see me
Now you see me, now you don't
No vow to break
No string of hope
My hero, your pariah
They're coming after me now

Life is just God's game
I am one but
Sparks turn into flames

And you get what you deserve
When revenge is what you serve
'Cause the future is now
Now I'm disappearing

I'll sink into the night
And I'm turning off the lights
'Cause the future is here
This is how I disappear

So the end's what you make it
And that's what you're looking for
This is the future
The future is now

Disappear, disappear
Disappear, disappear

Now turn off the lights
The skies are blue inside you

Turn off the lights
They'll get inside of you

Will you take what's in my head?
And erase me when I'm dead?
'Cause the future is now
Now I'm disappearing

The day has turned to night
Can you save me from the light?
'Cause the future is here
This is how I disappear, disappear, disappear, disappear
