You

Ofra Haza

Late in life you came to me And you put a sign on me... Late in life... What remained of you - when you fell into a tra p of sice?!

You... you... you... Only you...you... you... All your love - that I love... All your love...

Like a man who plays the game as a healing for his PAIN -You played your game - again and again -Crazy, insane, deep in love...

You... you... you... Only you...you... you... All your love that I love All your love
