

# First To Say Goodnight

Oh Land

I might be young, or so I'm told  
So why do I feel 85?  
I should get up, I should get down  
I should go out and make all my friends so proud

But the closer I am to midnight  
The further I get from this nocturnal life

I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight

And as the sailor needs the sea  
That is how my bed will crave for me  
I will go down with the sun  
And that is when the owls and bats have just begun  
Can feel the room is getting loud  
And that is when the music's turning up  
A million dancing endorphins  
While I am only running to catch a dream

But the closer I am to midnight  
The further I get from this nocturnal life

I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight

Goodnight, goodnight  
I am sleeping, hibernating, separating me from this nocturnal life...

I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight  
I will never get older than I am on the inside  
When the party gets going wild  
I am the first to say goodnight

Ooohh... Drift into my secret life  
Aaah... Hush my baby  
Ooohh... Drift into my secret life  
Aaah... Hush my baby

Sshhh...
