

# Head Up High

Oh Land

Where were you when I needed heat?  
I'm frozen  
Gotta get myself up and believe  
I'm broken  
Swim forward, we're under water  
She took your breath away  
Tell me love, thought you said you'd die for me

No heavy rain's gonna hold me down anymore  
No sin or shame's gonna strain my soul, oh no  
Another day I'm the shine in your eyes  
Another day  
Gonna hold my head up high

Higher, higher, higher,  
My head up

One day was all it took for us  
To fall apart  
Ship sinking with my heavy heart  
Come rescue us  
I stay strong, melt the words on my tongue  
Lights flash, you walk away  
Love's so big  
Got no room for hate in me

All these times I told myself  
Inseparable but time would tell  
Nothing is set in stone  
Carved in wood can't control  
All these nights I begged for rest  
Spin off into the wilderness  
Nothing is set in stone  
Turn my back  
Hit the road
