

Human

Oh Land

Go on and steal my breath away
Come on and hurt me more today
I tried to picture my escape
But I'm caught in a prison

Come over lie to build me up
When did your innocence corrupt
Can't help to drown, you fill me up
And I fall for your vision

Words and knife should stick in me
Decorated strategies
You were never far away
Ooooooh

I don't like you're human
You remind me of the things I hate in me
I don't like you're human
Cause you show me how imperfect I can be

Human
You're so lonely lonely lonely
Human
I guess you're only only only
Human mmmmm Human
I guess you're only only only
Human Human mmmmm

You leave the venom when you bite
Hunting another prey at night
You're thinking I'm too weak to fight
You don't see I'm the villain
Trigger happy point at me
Just pathetic weaponry
I ain't ever gonna change
Ooooooh

I don't love you're human
You remind me of the things I hate in me
I don't love you're human
Cause you show me how imperfect I can be

Human
You're so lonely lonely lonely
Human
I guess you're only only only
Human mmmmm Human
I guess you're only only only
Human Human mmmmm

Hu-man Hu-man Hu-man Hu-man Hu-man Hu-man Hu-man Hu-man

I don't like you're human
You remind me of the things I hate in me
I don't like you're human
Cause you show me how imperfect I can be

Human
You're so lonely lonely lonely
Human
I guess you're only only only
Human
