

Be a Star

Oh No Oh My

Jennie says she really wants to be a star
the star in school and musicals
she saw all the good ones when she was a child
she likes to dance, she likes to sing along

She had her first kiss while playing romeo
she fell in love instantly
Jennie pretty but she always plays the boys
the girls they think she plays them better than most boys

I said you'll never go I said you'll never go
It's like you in my heaven but heaven never knows

All the boys in school they all felt really strange
The pretty boy, they were confused
All the girls they liked her a bit too much
The perfect boy but she's a girl

??

It was all she had
I can never know what is on your mind
It was all you had

What's this you can not wait to go home
The girls are calling you on the phone
you can not ever go outside

You said you'll never go I said you'll never go
It's like your in my heaven but heaven never knows
