

## On the Town

Oh No Oh My

On the town beneath your window  
I'm in love and there's no where to go  
They're on my tail so please don't fail me  
But if I'm found they'll surely hang me

I'm always on the run  
always on the run

On the town beneath your window  
the cops around their guns all wrapped in gold  
If it's the end then please don't hate me  
I need your kiss or else just waste me darling

I'm always on the run  
always on the run
