

## White Blood

Oh Wonder

I'm ready to go, I'm ready to go  
Can't do it alone, can't do it alone  
I'm ready to run through the heat of the sun  
Can't do it alone, can't do it alone  
I'm ready to fall, so tired of it all  
Down deep in a hole, can't do it alone  
I'm ready to climb this mountain inside  
Impossible heights

Said you'd always be my white blood  
Circulate the right love  
Giving me your white blood  
I need you right here with me  
Said you'd always be my white blood  
Elevate my soul above  
Giving me your white blood  
I need you right here with me

I'm ready to go, I'm ready to go  
Can't do it alone, can't do it alone  
I'm ready to run through the heat of the sun  
Can't do it alone, can't do it alone  
I'm ready to hope, swing me out of the low  
Wide awake in the glow, can't do it alone  
I'm ready to fly, uncover the light  
Impossible heights

Said you'd always be my white blood  
Circulate the right love  
Giving me your white blood  
I need you right here with me  
Said you'd always be my white blood  
Elevate my soul above  
Giving me your white blood  
I need you right here with me  
I need you right here with me  
Here with me

Said you'd always be my white blood  
Circulate the right love  
Giving me your white blood  
I need you right here with me  
Said you'd always be my white blood  
Elevate my soul above  
Giving me your white blood  
I need you right here with me  
I need you right here with me
