

comedown

Ohgr

Once upon a time it feeds old solitude
Stepping out behind the white room allies
Wincing from the sun now forcing open eyes
Waiting now becomes a solicitude

Know my picture
Under the lot
And by promise
Read my prime
Artificial
Note occurred
Undelicately
Blew your mind
When you lose your mind

When you gonna come down here and blow my mind?

Undecided
Choice ignores
Darker aspects
Lost in time
Under curfew
Repressive ties
What did exactly blew your mind?
When you lose your mind?

When you gonna come down here and blow my mind?

Blow my mind my mind...

When you gonna come down here and blow my mind?
