

Eyecandy

Ohgr

Porn chicks burning those bras n' tits n' brooms
Porn chicks grabbing with their fingers in those things inside their jeans
Porn chicks posing for the cameras with their eyes on fire
Porn chicks on with body changes on desire
Sex flicks, not yet, so wet, sharp shoot, not long

Don't you wait caw boo/kaboom
I am chicken for two
Meat off the bones
Slide off the bandages
Full of come ons
Taking a prize at the door
Get high
Cumming yumming cumming
I'm poor take all I got

Face I got to have
Nibble of truth
That makes the world
Inside of pain
Bad hooks around
This sort of a game
It looks into
There goes nothing
It seems like it,
Is all a lie
I feel like I'm about to die
And now I know
Look deep inside
And now it may
Keep me alive
Aha ha ha hahaha

Eye candy eye
What will make the world a better place for you and I

Squeaks squeaks at me
Kids at the door worth things I've never grown before
Into the depths of your intestines and messes infected
Injects of love into the wildest thing I know
And now its faint it had to grow
But everything that I will know
Changing a number two

I'm taking a walk inside me plain and simple as using your mace
Things that can go awry inside me plain and simple as using your mace

Eye candy eye
What will make the world a better place for you and I

I see not the hand
nibble of truth
to face the world inside the pain
it looks around this time again
It looks into the color same
It seems like it all is all a lie
I feel like I'm about to die

and now I look deep inside
and now it can't keep me alive
Aha ha ha hahaha

Eye candy eye
What will make the world a better place for you and I
