

Nervous sits within the trees  
Watching watching oversees  
Razor radar lotions pour  
Over on some distant shores  
Waving flags to let them in  
Kiss my ass my stupid grin  
Moving targets well placing  
Look ahead what's following

Asking this worn out skin  
Is it still worth the risk of asking  
Ashen this plate again  
It keeps them running laugh at them  
All the same!  
They're watching to entertain  
All gone shames  
Small fishes to eat the game

Activate this opens doors  
Up ahead now blowing holes  
Weapons in we're making more  
To ease the very things we're told  
Version two what's not to do  
Know better once is left to prove  
Warping all the loveless bins  
Now pushing through the voodoo fringe

Asking this worn out skin  
Is it still worth the risk of asking  
Ashen this plate again  
It keeps them running laugh at them  
All the same!  
They're watching to entertain  
All gone shames  
Small fishes to eat the game

All the same!  
They're watching to entertain  
All gone shames  
Small fishes to eat the game

All the same...  
Worn out skin!  
Is it still worth the risk of acting!  
Action is quick again  
It keeps them running!

All the same!  
They're watching to entertain  
All gone shames  
Small fishes to eat the game...
