I look up at the sun rising
I know what you are
The shadows you cast on the lonely horizon
I know what you are

You can't fool me
I've seen what you'll be
I know what you are
Lord knows I know
You put on the good show
I know what you are

I looked in the glass your reflection escaped me I know what you are You lend me your own with the blindfold Now I see I know what you are

You can't fool me
I've seen what you'll be
I know what you are
Lord knows I know
You put on the good show
I know what you are

You can't fool me
I've seen what you'd be
I know what you are
Lord knows I know
You reap what you saw
I know what you are

I ever knew... I ever know...

I look up at the sun rising Shadows cast on the horizon I look up at the sun rising I know what you are
