

Elevator Man

Oingo Boingo

Who's goin down
Who's goin down - who's goin down
I ride my elevator
Through the shafts of your heart
When you climb aboard baby
There's no getting off

I'm a silent operator won't you please take my hand
I am so polite - I'm the elevator man

Friction and harmony - who's gonna ride with me
I'm the elevator man

Who's going down who's comin with me
Who wants to take a chance
On a piece of abstract reality
It's only just a dance
Won't you come and ride with the elevator man
Who's goin down yeah - movin slow without a sound

Who's going down - who's going down - who's going down
