

Spider crawling, on the wall
I see him and he, sees it all...
And he sees it all

I fell down in that lazy place,
Where the English language can't - penetrate and I
Saw your mouth moving - just forget it and lie here with me
Maybe we should just, climb under the sheets
Where the words they don't get in the way

We were wondering, if you recall
Is this the end of it - end of everything
We were wondering, wonder

Spider crawling - in my left ear
Has a message I - want you to hear
Hope you're happy - found what you're looking for
Do you miss me, miss me at all?

Spider tells me, saw you yesterday
With somebody new - what can I say?
What can I...

Spider crawling, I crawl with him -
We go everywhere, we see everything
We are falling, we are falling, falling to nowhere
Hope you're happy - found what you're looking for
Do you miss me, miss me at all?
Spider crawling, spider crawling, spider crawling...
