

Bright as Your Eyes

OK Go

Until the moonlight
Until the stars
Rise and rebellion and take new charge
Until the planets
Carefully tied
Throw off their shackles and fill the sky

They will never shine bright as your eyes
They will never shine like your eyes
They will never shine bright as your eyes
They will never shine like your eyes

Even the sunlight bleaching the sky
Whiter than heaven's own whitest white
Even the lightning tearing the night
Painting the firmament white with fire

They will never shine bright as your eyes
They will never shine like your eyes
They will never shine bright as your eyes
They will never shine like your eyes
They will never shine bright as your eyes
They will never shine like your eyes
They will never shine bright as your eyes
They will never shine like your eyes
