

# The Great Fire

OK Go

So much there was to lose.  
So much got lost  
In the great fire. In the great fire.  
So much that no one thought,  
That no one thought to think of at all,  
Until the fire  
The fire broke out.

But when the flames die down, and everything is gone,  
Will there be fire under the ashes still?

So this is really what you want  
And not some wild experiment  
That you're just trying?  
Do you remember saying my name?

There was only one way you could say it  
Before the fire  
The fire broke out.

But when the flames die down, and everything is gone,  
Will there be fire under the ashes still?
