

## Next Go 'Round

### Old Crow Medicine Show

When the summer is come and gone  
As the leaves fall on the lawn  
I think about pleasures pass me bye  
And I am thinking of my old home  
And the love I left behind  
No I couldn't I go back there if I try

On my next go round  
I'm gonna keep it to  
The dreams we new  
Before I broke them down  
Gonna take your hand  
Wanna be the man  
Who pulls you from the ground  
I won't let you down  
On my next go round

We were standing on the edges  
Of a thousand burning bridges  
Sifting through the ashes every day  
What we thought would never end  
Now is nothing more than a memory  
The way things were before  
I lost my way

On my next go round  
I'm gonna keep it to  
The dreams we new  
Before I broke them down  
Gonna take your hand  
Wanna be the man  
Who pulls you from the ground  
I won't let you down  
On my next go round

Now the winds are blowing steady  
My bags are awful heavy  
I wish that I could stop and turn around  
But there are no second chances  
In a world of circumstances  
Oh in this life you don't get no next round

On my next go round  
Gonna start again  
Gonna let you in  
Gonna lay our burdens down  
Gonna be the one to never turn and run  
I'll always be around  
I won't let you down  
On the next go round

I won't let you down  
On the next go round
