

Living And Learning

Old Man Markley

Every night I come to realize a life's a living and learning
Sometimes making the same mistakes twice
When the hard times come I can only hope you'll be there with me
Until then I'm gonna ride this train all through the night

I got a bottle of Jack and 10 bucks in my pocket
And the train left me 15 minutes ago
I've got nowhere to go, nothing to do
Thanks to Mr. Daniels I've got my bottle of booze
I just can't drink enough to get you out of my head

I got a bottle of Jack and 10 bucks in my pocket
And the train left me 15 minutes ago
If could turn back time, there's nothing I would do
Don't wanna run myself the risk of not meeting you
I've love, I've lost, and now I'm fucked
Nothing seems to change
I'm shit out of luck

Every night I come to realize a life's a living and learning
Sometimes making the same mistakes twice
When the hard times come I can only hope you'll be there with me
Until then I'm gonna ride this train all through the night (2x)
