

# Come When You Call

Oleta Adams

Wherever you go,  
darlin' I want you to know  
that baby I'll come when you call.  
Don't you hesitate  
honey, no matter how late  
baby, I'll come when you call.

When you're all alone  
and feelin' blue,  
when you can't get up off the ground,  
when you need someone there  
to help you see it through,  
I won't, won't let you down.

Just send me a wire,  
whatever your heart may desire  
baby, I'll come when you call.  
Just drop me a line,  
L.O.V.E. will do just fine  
baby, I'll come when you call.

I just want to be the one you need,  
I'll do anything for you.  
I want to be the only one  
to share all your dreams  
and smile as they come true.

No ocean's too far,  
send me a letter in a jar  
baby, I'll come when you call.  
I won't miss a stroke,  
darlin' I swear it's no joke  
baby, I'll come when you call.

When everybody turns their back on you,  
I won't , won't let you down.
