

Picture You the Way That I Do

Oleta Adams

Broken wander-er, you think you know you so well
It's hard to move ahead, when your so down on yourself
Take it easy, take a lesson from me
You'll be all you've ever needed to be

Love is simple, in its someone else
And you see all the things, you wish you'd found in yourself
just imagine, for a minute or two
You could picture you the way that I do

Oh, I wish you were to love you the way that I do
Oh, I wish you'd see the beauty that I see in you
I wish you could imagine a minute or two
That you could picture you the way that I do (2x)

Your distracted, in your world of despair
Broken hearted, convinced that nobody cares
Your reflection is intented with grace
When the sunlight can't fall upon your face

Don't be troubled, by the image you see
It's out of focus (out of focus), unless your seeing through me
From where I'm standing, its the best point-of-view
See the underlying beauty in you

If you could see you (see you)
I gotta see you (I gotta see you)
Picture you like I do (2x)
If you believe in you like I do
Picture you like I do
(See you, ah)
