

When You Walked Into My Life

Oleta Adams

I've waited all this time
Counting minutes as they pass
Searching for the sign
Wishing for the best
And just when I thought my chance was gone
You came to me with open arms

Chorus:

Like a miracle out of the blue
You rescued me when I turned to you
You shook the heavens and cracked the sky
When you walked
When you walked into my life
When you appeared
Like sight to the blind
Like music to my ears
Like reason to a rhyme
Just when my hopes were wearing thin
You turned my heart to love again

Repeat Chorus

Bridge:

You spoke my name and the world began again
You touched my heart and it opened

Repeat Chorus

You shook the heavens and cracked the sky
When you walked
When you walked into my life
