

Courageous

Olivia Newton-John

Every step is the same
Whether in the sunshine or in the rain
If you can hold on even through the pain
Show up tomorrow - do it all again
Show up tomorrow - do it all again

You'll have better love, better love
You are - you are courageous walk on, walk on
These are the times that can make us
Courageous and strong

There's a bigger plan that's what they say
But you still gotta make it through today
You may be feeling scared you want to run away
But if you choose to look fear in the face
You'll have better love, better love

You are courageous, walk on - walk on
These are the times that can make us
Courageous and strong

Life is hard that's how it goes
You've come this far - you gotta know that you are
You are courageous, walk on walk on

These are the times that can make us
Courageous and strong

You are - you are courageous
Courageous and strong
