

# Deeper Than the Night

Olivia Newton-John

I can't imagine why you say the things you do  
Maybe in time I'll understand  
What is the reason for the emptiness you feel  
When I'm trying everything I can

My love is running deeper than the night  
Stronger than the north wind blowing  
It's a fire burning bright  
And it's always been this way

Can you hear me?  
Am I really coming thru?  
Why do your eyes seem to dance away?  
I know what's right for you Haven't I always?  
I need you more than I can say

My love is running deeper than the night  
Stronger than the north wind blowing  
It's a fire burning bright  
And it's always been this way

My love is running deeper than the night  
Stronger than the north wind blowing  
It's a fire burning bright  
And it's always been this way

And I'll never ever change  
In my lifetime, I'll stay the same  
Yes I'll never, I'll never change  
I'll love you, I'll stay the same

My love is running deeper than the night  
Stronger than the north wind blowing  
Fire burning bright, and it keeps on growing, keeps on growing  
[Repeats]
