

## If We Try

Olivia Newton-John

When I see you on the street  
I lose my concentration  
And just the thought that we might meet  
Creates anticipation  
Won't you look my way once before you go  
And my eyes will say what you ought to know  
Well, I've been thinking about you day and night  
And I don't know if it will work out right  
But somehow I think that it just might  
If we try

Faces come and faces go in circular rotation  
But something yearns within to grow  
Beyond infatuation  
Won't you look my way once before you go  
And my eyes will say what you ought to know  
Well, you got me standing deaf and blind  
Cause I see love as just a state of mind  
And who knows what it is that we might find  
If we try

You're walking a different direction  
From most people I've met  
You're giving me signs of affection  
I don't usually get  
I don't want you to pledge your future  
The future's not yours to give  
Just stand there a little longer  
And let me watch while you live
