It's Not Heaven

Olivia Newton-John

Here's your lunch money You better hurry for the old school bus Did you clean your teeth this morning I know you hate it when I start to fuss Here's the letter for your teacher Your dinner's in the freezer Five minutes in the microwave Don't wait for me this evening I'm probably working late

Your dad is coming over With his new lover And I don't wanna be around So I'm gonna do some shopping I'll buy you those stockings I'll be back in half an hour Oh it's my anticipation There'd be a confrontation I know how much it breaks your heart Let's be pleased for him - he's trying To make a brand new start

It's not Heaven but it's all we've got You have to understand it I wanted Ozzie and Harriet With a picket fence around it But that was all an illusion Now we're living in reality But we're gonna have a happy ending - you and me

We'll spend the weekend playing I hope it won't be raining When we go to the game with Dan I know you think he's boring But this time don't ignore him Won't you give him half a chance No he's not as fun as dad But there's good as well as bad In hanging on to yesterday I'm not trying to replace him Guess I'm really trying to say

It's not Heaven but it's all we've got You have to understand it I wanted Ozzie and Harriet With a picket fence around it But that was all an illusion Now we're living in reality But we're gonna have a happy ending - you and me

Together I know we'll survive Rebuild our lives together One day at a time

It's not Heaven but it's all we've got You have to understand it I wanted Ozzie and Harriet With a picket fence around it But that was all an illusion Now we're living in reality But there's gonna be a happy ending Wait and see Yes there's gonna be a happy ending For you and me You better hurry for the old school bus
