

Learn to Love Yourself

Olivia Newton-John

You're hurting, uncertain
Alone again
Still searching for someone
But so afraid

And you'll try for love
And you'll cry for love
'Til you learn to love yourself
And you'll lie for love
And you'll die for love
'Til you learn to love yourself..

The answer is sleeping
Inside your heart
True love that you long for
That's where it starts

And you'll try for love
And you'll cry for love
'Til you learn to love yourself
And you'll lie for love
And you'll die for love
'Til you learn to love yourself...

Breathe it out and breathe it in
Trust the light that shines within
Let it burn 'til you learn to love yourself
Breathe it out and breathe it in
Trust the light that shines within
Let it burn 'til you learn to love yourself

Love will lead you home...

Love will lead you home...

Love will lead you home...

Breathe it out
Breathe it in
Trust the light that shines within
