Long Live Love

Olivia Newton-John

Long, long live love Love is to care Caring and sharing Long, long live love

All the kids like ten tin soldiers in a row Followed hand in hand Sister Anna carrying the banner for the Sally Annie band Singing songs of praise and glory We all learn to love their story Good things are coming to you Glory, glory hallelujah

Long, long live love As long as we live Living and giving Long, long live love

On a wet day, dry day, great to be alive day Brother takes the stand Cymbals ringing, everybody singing with the Sally Annie band Just a band of happy people Teaching, preaching love is equal When you feel the spirit move you Glory, glory hallelujah

Long, long live love Love is to care Caring and sharing Long, long live love, love, love, love, love Ohhh Long, long live love As long as we live Living forgiving Long, long live love
