

# Deeper

Olly Murs

Summer days are falling  
Take you away while the night is young  
Don't wanna wait till morning comes to call you home

It's a life, we're alright cause we live in paradise  
Terrified of the lights we don't wanna kill the night  
It's a life, we're alright cause we live in paradise  
Must be something in the room

All I wanna get is something I won't forget  
We can dive deeper than the ocean bed  
All I wanna get is deeper with you

All I wanna see is one thing before I leave  
Getting so deep it's hard to breathe  
All I wanna get is deeper with you

Summer breeze is howling  
My heart is still just like the sun  
The animal inside me wants to taste your love

It's a life, we're alright cause we live in paradise  
Terrified of the lights we don't wanna kill the night  
It's a life, we're alright cause we live in paradise  
Must be something in the room

All I wanna get is something I won't forget  
We can dive deeper than the ocean bed  
All I wanna get is deeper with you

All I wanna see is one thing before I leave  
Getting so deep it's hard to breathe  
All I wanna get is deeper with you

Deeper  
Deeper  
Deeper  
Deeper  
Deeper...

All I wanna get is something I won't forget  
We can dive deeper than the ocean bed  
All I wanna get is deeper with you

All I wanna see is one thing before I leave  
Getting so deep it's hard to breathe  
All I wanna get is deeper with you
