

## Flaws

Olly Murs

I got flaws I can't disguise  
I've been running from them all my life  
On the surface I'm all smile

But I'm only living half a lie

Stuck behind the glass and the walls are closing in  
Stuck inside a past that won't let me leave  
But I'm in chains while you're breaking free

Stuck behind the glass and I'm waiting for your call  
Nothing ever lasts for a prisoner  
I'm in chains while you're breaking free  
And it's killing me

I got flaws I can't disguise  
And you tried to pull me to the light  
I can't go back and make it right  
And I wonder where you sleep tonight

Stuck behind the glass and the walls are closing in  
Stuck inside a past that won't let me leave  
But I'm in chains while you're breaking free

Stuck behind the glass and I'm waiting for your call  
Nothing ever lasts for a prisoner  
And I'm in chains while you're breaking free  
And it's killing me

We were never born to make it out of this alive  
When we were never born to make it how could we survive

Stuck behind the glass and the walls are closing in  
Stuck inside a past that won't let me leave  
And I'm in chains while you're breaking free

Oh oh  
Stuck behind the glass and I'm waiting for your call  
Nothing ever lasts for a prisoner  
I'm in chains while you're breaking free  
And it's killing me
