Love You More

Olly Murs

Cold hearted in an empty bed
Broken pieces
And i know I lost my head
But I lied when I said that I could have lived without you
Cause I can't live without you

If you could see me now from the inside out
You'd see the wreckage of a man trying to find a way out
I couldn't love you more
Love you more
Love you more

Cause I made my mistakes
And you can walk away
You know that ain't nobody gonna love you more
Ain't nobody gonna love you more

Heartbreak and the time it takes
From true love to too late
Oh man, what a mess I've made
Well, I dug my own grave
But I won't live without you
No, I won't live without you

If you could see me now from the inside out
You'd see the wreckage of a man trying to find a way out
I couldn't love you more
Love you more
Love you more

Cause I made my mistakes
And you can walk away
You know that ain't nobody gonna love you more
Ain't nobody gonna love you more

So put your keys away
Cause you're not thinking straight
You know that ain't nobody gonna love you more
Ain't nobody gonna love you more
Oh yeah
You know that ain't nobody gonna love you more
Ain't nobody gonna love you more

Cause I made my mistakes
And you can walk away
But ain't nobody gonna love you more
Ain't nobody gonna love you more
