

Black desiree

Olympos Mons

I wake up in the heat of the night
And the magic is there right away

I go outside, and I don't need a light
'Cause I know that it's her calling me

I can feel her exotic scent
Mixed up with a hot summer wind

Your dark skin nearly makes me faint
Please open your heart let me in

Whispers in moonlight
Light promises
Shimmering lights dancing
In raven black hair
Black Desireé

Whispers in moonlight
Why can't you see
We're one with the night, forever
Just you and me
Black Desireé
Black Desireé

She starts to sing an ancient tune
Meant to soothe my soul

All I see is the rising moon
And I'm going out of control

Whispers in moonlight
Light promises
Shimmering lights dancing
In raven black hair
Black Desireé

Whispers in moonlight
Why can't you see
We're one with the night, forever
Just you and me
Black Desireé
