

Sex Playlist

Omarion

Can I believe I got it all alone?
Can I believe the time ain't really so
No how I feel but don't know what to say
Turn the subject and let it play
Already played a few bout nothing
Then wanted it by fucking
And then I couple I made
Girl I didn't say it was you all alone while you were on your p
hone on your way
Already getting play
Girl you don't have to say a shit
Girl you know how my play is
Girl is it the sexplaylist?

Girl you, girl you know,
Will I lead my head on your wipes, I'm never tired
Don't get me started by the way that you keep me higher
And I'm serious girl you know you don't have to play
Matter fact got the pay
Girl you don't have to say shit
Girl you know how I play this
Girl is it the sexplaylist?

Girl you, girl you know,
Girl you, girl you know,
Girl you, girl you know,
Girl you, girl you know
