

## Steam

Omarion

I remember my heart was feeling cold and  
Dark clouds were rolling in  
Told me to pull over  
The you told me to get over it yea  
Don't need the phone light  
Girl it's too thick to see through  
Stopping at the wrong light  
Girl ain't no need to speed through  
Nah they can't see ya  
But even if they could  
Still couldn't see us  
Your love is like the sun  
Girl you know I need ya  
Way too thick to let go  
Hands off my heater  
But you could put it back on my neck though

I love your steam  
Rising off your body like a dream  
High with no smoke  
Even if they come close  
They'd never know

Cold feels so lonely  
But it brings you close to me  
Baby I can keep you warm  
But if you don't take off your clothes  
We'll never know

I like the way you ride  
You like the way that I drive it  
They compliment my ride  
Don't know what's going on inside it  
You said my love's a crime  
That's why you feel so excited  
Girl you cannot deny it  
You're feeling closed in  
Well you should let me inside it  
I got your open and undivided  
Attention on me now  
It's cold in here  
Call me sensitive  
That's what I can give
