

Oh, do you remember  
When we were young?  
We just had fun

Pedal to the metal, shine into the steel  
Sitting up front, Elivisi by the wheel  
Putting out of Island Bay, weather looking fine  
Flick the switch, needle twitch, FM to the dial

Buddy Toledo singing to the songs  
Watching all the P?s and Q?s, nothing can go wrong  
Dino Valentino and his lady, flashes cash as the deals go by  
So good to be alive, right on, right on

Oh, do you remember  
When we were young?  
We just had fun

Pieces to the puzzle, music is the word  
Franko?s on the show, flying out the bird  
Somersaults and figure eights, breaking all the rules  
Pushing all the pushers, The King of the New School

Buddy Toledo fronting on the stage  
Pacifies the masses with a smile and a wave  
Dino Valentino and his lady counts the cash as deal goes by  
So good to be alive, right on, right on

Oh, do you remember  
When we were young?  
We just had fun

Oh, do you remember  
When we were young?  
We just had fun

Oh, do you remember  
When we were young?  
We just had fun

Oh, do you remember  
When we were young?  
We just had fun

Oh, do you remember  
When we were young?  
We just had fun
