

88 Seconds in Greensboro

OMD

88 seconds
Is all it takes
88 seconds
Don't make mistakes

We've seen you
We can see you

In red and blue
In black and white
Under crystal skies
In full daylight

You know it
God you know it

88seconds
Is all it takes
In 88 seconds
We don't make mistakes

We know you
Oh yes we have known you

Times are changing
But not in our street
Once we played there
Like the good times

You know it
God you know it

They're heading for
A shallow grave
With a big black cross
By a tall white house
To a place down south
We won't forget
To be stabbed in the back
By a man they met

In 88 seconds
In greensboro
88 seconds
In greensboro

88seconds
In greensboro
Is all we take
