

# Die By The Blade

Omen

All through the night steel by your side  
Journey into the darkness beyond southern lights  
A mission of vengeance and terror we are the reign  
You live by the sword you'll die die by the blade

You stand in my way a fatal mistake  
The path of destruction lies lies in your way  
Nowhere to run the nightmare is real  
There's no way escaping the wrath the wrath of my steel

You live by the sword you'll die by the blade  
Stand for the fight your life I will take  
You'll die by the blade

On into the night steel by your side  
Journey into the darkness beyond southern lights  
A mission of vengeance and terror we are the reign  
You live by the sword you'll die die by the blade
