

Dragon's Breath

Omen

Gaze into the valley where broken bodies lie
Watch the smoke that's rising a sign that more shall die
The beast has taken many the ashes tell the tale
Lord we ask for mercy and set out on the trail

Give us all sanctuary dragon's breath we fear
Shelter us from the burning dragon's breath is near
Spitting flame and fire dragon's here

Searching for a place where we can stand and fight
Death is the only trace left behind this night
From the black abyss he rumbles all the earth
With a demon kiss he claims another birth

Oh dear lord save us all from the death, Dragon's Breath
