

## Into the Ground

Omen

When I look I see the same things, same place, same shit  
Everyday. The clock is turning and time keeps on ticking  
But nothing changes.

You run it into the ground.

When I listen I see all the same things, weak ass, talk shit  
Radio. Brainwashed and force feed the masses. You short  
Change everyone but yourself and still you -

Run it into the ground, time and again until it's over  
Exposed. You run it into the dirt till you exert total  
Control -

Run it into the ground, time and again until its over  
Exposed. You run it into the dirt till you exert total  
Control

Well i don't need your corporate power that you deal so  
Well. I'd rather stand all alone than to give into the main  
Stream that you own, that you own.
