

# King Of The Hill

Omen

Lost days and distant nights  
Sail out beyond the light  
Set a course straight and true  
You've started something  
Now see it through

I am the king of the hill  
The very top of the heap  
You wanna play, it's going to cost  
No turning back 'cause you're in to deep

Take a stand, make a move  
Tell the world you've got something to prove  
Play your cards read 'em and weep  
Count the cost, cause they don't come cheap

I am the king of the hill  
The very top of the heap  
You wanna play, it's going to cost  
No turning back 'cause you're in to deep

What's inside your mind -  
Find it, feel it  
You know you can find  
No one sees it  
Dedicate your mind  
Stand up, face it  
Turning twisting time  
Turn around, see me move

Yeah

No way  
Not today

Stand up

I am the king  
Knock me off  
I am the king  
Count the cost

I am the king  
Knock me off  
I own this hill  
Ha ha ha
