

Sing It Out Loud

Omi

People always say that the world today is a crazy place
Cause all the things that made a lot of sense took a holiday
Like you and me and the love we shared
And the kisses and hugs that you can't compare
But I'm tryna write you a beautiful song
But it's hard to find the words to say

Oh, sing it out loud, oh yeah
Sing it out loud, yeah yeah yeah
Put your lighters in the air
And keep them up until the shadows disappear, oh yeah
Until the clouds fall back into place
And the words jump back on this page
Until the world makes sense again

You don't have to say what you're about to say, I've heard it s
o many times
That it won't work cause we don't know unless we try
Nothing good comes easy and baby easy won't last, oh
Tryna write you a beautiful song
But my vocabulary ain't that wast

Oh, sing it out loud, oh yeah
Sing it out loud, yeah yeah yeah
Put your lighters in the air
And keep them up until the shadows disappear, oh yeah
Until the clouds fall back into place, yeah
And the words jump back on this page
And the world makes sense again
Sing it out loud, oh yeah
Sing it out loud, yeah yeah yeah
Put your lighters in the air
And keep them up until the shadows disappear, oh yeah
Until the clouds fall back into place
