

I don't speak human

Omnia

Deep within the shadows, I'm the hungry wolf you fear But I can see that you're the only evil creature here Before you came we lived in peace but you have brought us death I sing my pain up to the moon but it's a waste of breath

Because I don't speak human...You can't understand a word I'm saying

Upon a wing, a flying thing, to you I seem so small But I look down on what you've done, my raven's eye sees all You people like a cancer grow, destroying all you see and 7 billion mutant monkeys, won't listen to me

I won't run this human race, your war is not for me I hear the voices from the wild, they thought me how to see It's us who are the strangers here and we don't own the land My words they fall upon deaf ears, cause no-one understands

Now you tell me That i'm wrong and animals don't feel you say the earth is not alive and only We are real You try to tell me to behave, that I must act like you But I just stick my fingers in my ears and say 'Fuck you!!!'

'Cause I don't speak human! I can't understand a word you're saying!

I don't own anything
