

## Deep Cold

Omnium Gatherum

What?  
did you leave yourself  
wandering around  
a night bird sings  
a song built in a dream  
why let your heart only whisper

Is there really something wrong  
a day in the deep  
could carry a year  
where was the beginning  
and when was the end  
my friend

And they pass by sound asleep  
and all of the eyes are wide awake

"The summer wind  
came blowing in  
from across the sea"
