

Deep Cold

Omnium Gatherum

What?
did you leave yourself
wandering around
a night bird sings
a song built in a dream
why let your heart only whisper

Is there really something wrong
a day in the deep
could carry a year
where was the beginning
and when was the end
my friend

And they pass by sound asleep
and all of the eyes are wide awake

"The summer wind
came blowing in
from across the sea"
