Yo

Once upon a time, he used to call the fellas and hang Met her, they said he was never the same Started seeing them together like umbrellas and rain You would think that spaghetti put a spell on his brain This shorty was a forty on scales of one to ten Tight midsection, light skin complexion Sugar, red spice and everything delicious Did I fail to mention, that she payed tuition (not yet) She said "I'm trying to get the education" So she could get a good paying occupation Maybe with a big name corporation Full benefits with the paid vacation (here we go) She liked poetry said "I'll read you mine" I'll never lead you blind or feed you swine If you would be mine, it would be sublime But I still need some time for beats and rhymes They would talk a whole lot about this and that Which reminds me, hop the broom stick in fact Got her daddy thinking what kind of ish is that But I guess he didn't know opposites attract True Love

The way she walks with me (It must be true love) The way she talks to me (It must be true love) The way she looks at me (It must be true love) The way she's hooked on me (It must be true love) The way she trust in me (It must be true love) The way she lust for me (It must be true love) The way she stuck with me (But check it out! If you find true love hold on to the end)

Conversation, in the place integration, we flossed with envy You tossed and hit me, in the slug like Ross and Ritchie We solved a mystery, Men's evolution and wars eventually Involved in history, barriers dissolved immensely With all she gives me, she got my back like a tail bone Radiate like antennas on cell phone And make it straight, see when it's time to display the truth You get the point like a saber tooth See in the mix we stand, you seen in this tan hand Behind the dissed pen hands, it's time to fix the plan Cause to her love's infinite, but the future get ended quick Beware all the moochers and benedicts We made a mark like exclamation (explanation) Her only expectation is love with no expiration After 6 long years no longer a friend So if you find true love hold on to the end
