## One Chance

See my days are long  
And the nights they seem to never end  
Got me feeling numb  
And it's hard for me to get out of bed

I'm trapped inside the memories  
So hard to erase them  
Try to hit the forward button  
But I'm still on play back

How do you dare  
Try to heal or even joke with  
When your time was invested  
And the wounds are wide open

Trusted you with my heart  
I should have kept guarded  
Before I played my part  
That's when the problem started

Acted like it was right  
It was the opposite  
More I try to defy  
That's why I gotta quit

Never thought I'd be so full of regret  
Cause in my eyes you never make a mistake  
Now to think of you just gets me upset  
So sick to my stomach

I wish that I could undo rememberin'  
Undo the time we spend  
Undo me saying I love you I love you  
Undo take it back  
Undo matta fact  
Wish I could stop it before it started  
And undo ever knowing you  
(You you you you you you) undo  
(You you you you you you) u-undo  
(You you you you you) u-u-undo  
Wish I could stop it before it started  
And undo ever knowing you

Walls are closing in  
And it's hard for me to get out this space  
You'd be out with him  
And you come home and lie straight to my face

What you wanted you never had  
I wonder what could have been  
Can't tell there was nothing left  
And nothing's what you've given me

Why didn't I see  
That your love came with a limit  
Then the truth finally comes out  
That your heart was never in it

Never thought I'd be so full of regret  
Cause in my eyes you never make a mistake  
Now to think of you just gets me upset  
So sick to my stomach

I wish that I could undo rememberin'  
Undo the time we spend  
Undo me saying I love you I love you  
Undo take it back  
Undo matta fact  
Wish I could stop it before it started  
And undo ever knowing you  
(You you you you you you) undo  
(You you you you you you) u-undo  
(You you you you you) u-u-undo  
Wish I could stop it before it started  
And undo ever knowing you

[Talking:]

It's Like I gave you everything  
And what did you really deserve in the end  
And I know when we began this  
I wanted to put my heart in this  
And I really wish that I could just

(I wanna bring that back)

Never thought that I would be so full of regret  
Cause in my eyes you never made a mistake  
Now the thought of you baby just gets me upset  
So sick to my stomach  
Wanna stop remembering all of the time we spent  
Me saying that I love you  
Undo Undo Undo

Never thought I'd be so full of regret  
(Cause in my eyes you would never make a mistake)  
Now to think of you - now to think of you  
(You you you you you you) undo
